Our New Roses For 2000

~ (see front cover) ~

ARS E RALPH MOORE (SAVaralph) PPAF – An AOE winner for 2000 from NOR'EAST which John Saville introduced at the 1st All Miniature Rose Show in Fresno, CA, 1999. Named in my honor, I have grown and watched this rose for sometime. Bushy plant, good color, fast repeat. A great new red miniature rose with lots of exhibition potential. \$5.50 2/M

HALO™ SUNSET (MORsunset) – Our newest addition to our HALO series – looks like one of the best. Bright orange blend with a darker reverse and a red halo. A good, vigorous plant with lots of flowers. \$5.50 2/M

ROBI™ (MORrobi) – This vibrant new red miniature is not an exhibition rose, but a very good garden variety. Nicely formed buds appearing in clusters of 5 to 10. One spray can make a long lasting bouquet. A hardy little bush with good foliage. We think you will love it. Named for a good friend who loves roses. \$5.50 2/M

CL. CHICK-A-DEE (MORclchick) – This sport of our favorite miniature has buds and flowers (soft pink) just like the bush – but LOTS MORE of them. A moderate climber that can also be used as a flowering shrub or cascading out of a large planter or tub. Can make a shrub 3ft high by 5ft wide (see picture of Chick-A-Dee – page 10). For loads of 1-1/2" double pink blossoms plant Climbing Chick-A-Dee. \$5.50 2/TCL

LITTLE PINKIE™ (MORpinkie) – Just imagine a bushy little plant with tiny leaves and no thorns, topped with small nickel sized double pink flowers and you have a picture of this new addition to the micro minis. Plant stays small (8in.) and compact. A great pot or border plant. Supply limited this season. Won a blue ribbon at the 1st All Miniature Rose Show in Fresno, CA. \$5.50 1/IL

PLUS *Two New Limited Edition
Garden Roses*

Price \$6.50 each – 10 for \$50.00 Plus S&H

ROUNTUIT™ (MORtuit) PRR – We have wondered what to call this new hybrid rugosa rose until one of our customers, who has test grown it, remarked recently that it really was a lazy man's rose, requiring so little care. So ROUNTUIT became its name. It makes a somewhat spreading plant to 5ft. Blooms all season with 2-1/2" very double rose pink flowers which cover the bush. Very hardy and carefree. \$6.50.

SUNSHINE SALLY™ (MORSally) PRR – Buds like the much loved Cecile Brunner (only clear yellow) opening into soft yellow double flowers in clusters or sprays. Glossy foliage, can be grown as a flowering shrub (5ft x 5ft) or trained as a climber, repeat bloom. \$6.50.

GROUP "A" \$5.50 each

ALBUQUERQUE ENCHANTMENT (MORalbuque) PRR — Delightful shading of red on white (1-1/2") flowers make this rose truly enchanting. Compact plant with abundance of bloom and charm. A bright balance of white and red. Splendid plants for pots, borders, and color accents. 2/M

ANNIE R. MITCHELL (MORmitchell) PRR — This soft, creamy yellow sport of 'Mary Hill' makes an excellent rose for pots and gardens. The bud form and plant habit give you plenty of reasons to want several for your garden. Named in honor of Visalia's own long-time historian, Annie R. Mitchell. 2/M

APRICOT TWIST™ (MORbrown) Pat. 9556 — Not just another miniature! Well formed buds and flowers of unique apricot yellow and brownish tints. The double fragrant flowers come on strong stems on bushy healthy plant. 2/M

BUTTERMINT™ (MORsnap) — Attractive buds and double flowers of light to medium yellow on a vigorous upright plant. A real joy. 2/M

^{ARS}
E CAL POLY™ (MORpoly) Pat. 8453 — One of the finest medium to deep yellow miniatures to date. Perfectly furled buds open to rich yellow 1-1/2" double (20 petals) long lasting flowers. Use for pots, gardens, exhibition. Ht. 15". 2/M

CHARLIE BROWN™* Res.(MORcharlie) — This unique little mini rose makes a neat rounded plant about 10-12" high and covers itself with double 1-1/4" red and white striped flowers. An excellent plant for pots and borders. 1/L

CHERRY HI™ Pat. 11,099 (MORshodot) — This rose is too red for words. The neat plant which explodes in color all season, stands out in a crowd. The very double red flowers hold well in hot weather. Not exhibition, but a variety too good to be ignored. You will want to plant a border or a dozen pots... for gifts. 2/M

CLIMBING CAL POLY (VAR: MORclpoly) — Just like the bush form in flower, but on a repeat climbing shrub. The deep green foliage and bright yellow flowers contrast to make an attractive specimen for your garden. 2/TCI (see picture of Cal Poly)

DIAMOND ANNIVERSARY™ Pat. 11,063 (MORsixty) — Lovely lavender buds on thornless bush bloom repeatedly all season. The dark green foliage surrounds this neat, compact plant which grows well in pots and in the garden. Give this rose to celebrate your special anniversary! 2/M

ENGLISH PORCELAIN (MORporc) — Delicate clear pink pointed buds are wrapped in long slender sepals. Exhibition form buds open to 1-1/2" double flowers. Healthy, bushy, spreading plant with new growth tinted red. Lightly fragrant flowers are excellent for cutting and arranging. 2/M

FAIR MOLLY (MORfairpol) — Pearl pink to white flowers cover the small glossy foliated compact plant (12"h). Constant repeat bloom of semi-double flowers (1-1/2") in sprays. Excellent for pots or low borders. 2/M

HALO™ KAROL (MOReyes) — This new halo is one of the most striking of our halo series. Vibrant red halo with pink petals, and a dark pink reverse. This semi-double bloom shows best in warm weather with the most distinct red eye or halo. 2/M

HALO™ FIRE (MORhalfire) — Bright orange-red 1-1/2" flowers have a darker red halo. Vigorous upright plant. Healthy foliage and lots of flowers in clusters. 2/M

GROUP "A" \$5.50 each

HALO™ SUNRISE Res. (MORsunrise) — This bright yellow 8-10 petal flower shows the reddest Halo to date. Vigorous, healthy bush, fast repeat bloom and brilliant flowers. 2/M

HALO™ TODAY (MORtoday) — Bright orange red 1-1/2" flowers. Each petal has a distinctive red eye at the base giving the flowers their unique effect. Free flowering healthy plant produces these single (5 petals) flowers in clusters of 3 to 10. 2/M

IVORY PALACE™ (MORivory) — Vigorous, bushy plant with loads of ivory white flowers in clusters. Very good form and quite double. Long lasting on plant or as cut flower. 2/M

JACQUIE WILLIAMS™ (Var: MORwheels) — A white with red picotee resembling the classic 'Magic Carousel' (miniature) but on a more compact, well rounded plant and with more red on the flower. Excellent potted plant, border or specimen planting. The semi-double (12-18 petals) flowers are borne singly and in small clusters. Flower size 1-1/2 – 2". Long lasting, excellent form. 3/M

^{ARS}
E JUST FOR YOU™ (MORyou) Pat. 8200 — A vigorous free flowering plant with lovely light red or deep pink buds opening into 1-1/2" double flowers of the same color. Exhibition. 2/M

KAYLA (MORkay) — Lovely deep pink pointed buds. 2" flowers blending into softer shades of pink as the flowers mature. Vigorous, upright plant with flowers of exhibition quality and good as cut flowers. 3/T

LAVENDER DELIGHT™ (MORorcheri) — A really dependable and showy lavender mini. Healthy, upright plant to 14". Very free bloom in clusters and the color holds even in hot weather, 10 to 12 petals. Medium green semi-glossy foliage. 2/M

LOVELY LORRIE™ (Var: MORlaw) — Soft pink turning lighter as it opens. They are great in pots, and make excellent border plantings. Flowers are borne singly, and in small clusters. The small sprays make excellent cut flowers for arranging. 2/M

LUCY™* Res. (MORlucy) — A sassy little miniature in a "different" shade of pink. She has semi-double 1-1/2" flowers that cover the plant all season, stays very compact and grows about 10 inches high. 1/L

ORANGE PARFAIT™ (Var: MORjoyart) — This new rose looks just like its name. The soft orange color buds open to flowers of the same color. Exhibition form with 18-24 petals, on a well rounded, healthy plant. The flowers are excellent for cutting, and the rose can be grown in pots, or in the garden. 2/M

^{ARS}
E PLAYGOLD™ (Var: MORplaygold) — Bushy rounded plant (15-18") with healthy disease resistant foliage. Pointed buds open to 1-1/2 – 2" single (5-8 petals) bright orange/yellow flowers changing to soft pink and orange as they age. Blooms come singly and in loose clusters and resemble our native California Poppy. 2/M

POLLY SUNSHINE (MORgoldpoly) — Lovely old fashion form for a graceful garden rose. Constant repeat bloom with glossy foliage on a compact plant (18"h by 24"w). The first truly yellow polyantha. For garden, pots, borders, etc.

RED FAIRY (MORredfar) Pat. 10,500 — The colorful cascade of medium to light red flowers make you stop and take notice. Comparable to the popular 'The Fairy', with vigorous spreading growth, and glossy foliage. Hardy, easy to grow. Good for mass planting, and color spots. (Polyantha)

ABOUT OUR ROSES

All of our roses, including the old, rare and unusual varieties, are own root, pot grown, plants. Every shoot that emerges from the soil is a desirable part of the plant – not a 'sucker' as is possible with budded or grafted roses. Our tree roses, however, are budded on Climbing Pink Clouds root stock, developed by Mr. Moore.

Since we ship quality young plants in small pots all year around, they are available to you when the time is right to plant in your area.

More than 60 years of experience and dedication have contributed to making our roses the wonderful plants we offer here at Sequoia Nursery.

If you experience a problem with your roses, please return a copy of your packing slip, describing the problem.

*We appreciate you –
our customers and friends for
your encouragement
and support through the years.*

SOMETHING DIFFERENT \$8.25 each

These varieties are NOT miniatures.

CLIMBING PLAYGIRL (MORclip) Pat. 9567 — Irresistible sport of the popular floribunda, this wonderful climber will brighten up every garden. Grows 8-10' here in Visalia and blooms repeatedly all season.

PLAYBOY (Cocker) — This great single (10 petals) floribunda is a blending of yellow and red shades. Glossy foliage on a bushy 3' plant.

PLAYGIRL (MORplag) (FL) Pat. 6468 — Large single, bright pink in clusters of 3 to 5 on healthy, vigorous plant. Great for garden and exhibition. For a dynamic hedge — mix Playgirl, Playboy and Playtime.

PLAYTIME (MORplati) (FL) Pat. 7996 — Bright orange red 3" single flowers. A companion to Playgirl. Glossy foliage; vigorous upright plant. Outstanding garden color. Can take harsh conditions. Heat tolerant.

TOPAZ JEWEL (MORyelrug) Pat. 6793 — Hybrid Rugosa shrub. First repeat flowering yellow Rugosa rose. Very hardy; dense growing shrub to 5'. 3" fragrant flowers in clusters, spring to fall.

VINTAGE VISALIA™ (MORlu) PRR — Large (3") very double flowers. Slender, deep pink buds open to medium pink flowers, usually one to the stem. Vigorous, upright (floribunda type) plant to 2-1/2' or more. Fast repeat bloom; dark green foliage...A new rose with "old fashioned" flower form. For garden, container growing and cutting. **NOT A MINIATURE.

GRANDMA'S PINK (MORboquet) — A new rose in the "English" (David Austin) manner, only smaller plant and flowers. The many petaled 2-1/2" rose pink flowers are borne in clusters on a vigorous, upright 2-1/2' plant. Repeat bloom; nice cut flower. Can be grown in tub or large pot.

ALL ROSES ON THIS PAGE Price \$8.25 each

NOTE: We cannot list all varieties we grow. Some are only in small quantity; others become available at different times of the year. For supplementary list of *old, new and unusual roses*, plus some other miniatures, write or call for FREE list.

LINDA CAMPBELL

Pat. 8199

A new hardy SHRUB ROSE (Hybrid Rugosa). Rich red 3" flowers produced in clusters of 5 to 25 blooms from spring to frost. Makes healthy, vigorous plant up to 6 ft. tall by 8 ft. wide (in Calif.). Few thorns! Use as specimen plant, for hedges or mass planting (or train as low climber). A SPECTACULAR flowering shrub.

EACH: \$8.25; 10 or more @ \$7.50.

RALPH'S CREEPER™

(var.MORpappay) Pat. 6548 — Spectacular ground cover spreading 5' wide. 18" to 24" high. Flowers are vibrant red with a yellow eye, self cleaning and blooming all season. Excellent for a mass hillside planting. Will bloom in some shade.

EACH: \$4.95; 5 for \$22.50 (4.50 ea.)

PINK POWDERPUFF

(MORpuff) — R. bracteata hybrid. Fragrant, large 4" very double flowers in clusters. Resembles Mme. Hardy, only pink and climbing to 10'. **\$8.25**

SCARLET MOSS

(MORcarlet) Pat. 7128 — The reddest MOSS rose ever created! Very mossy 10-petaled flowers brilliantly set off by a center of golden stamens. Vigorous, well-branched plant covered with glossy foliage. **\$5.50.** (3/T)

Playtime

SHARON'S DELIGHT™

Res. (MORsharon)

This new hybrid (SheriAnne X Safrano) resembles "Sally Holmes" in flower, but on a smaller, more compact plant — 2-1/2 ft. tall x 3 ft. wide. Snow white 2-1/2 in. 5 petaled flowers in clusters. Constant all season bloom. Good grower; healthy foliage. Grow as shrub, in borders, large pot or tub.
